• OFFICIAL CALL FOR PAPERS

OFFICIAL CALL FOR ABSTRACTS & RESEARCH PAPERS

RESEARCH INTEGRITY & RESPONSIBLE AI SUMMIT 2026

An international virtual forum advancing scientific reproducibility, algorithmic accountability, forensic detection of synthetic fraud, and trustworthy AI governance across academia and enterprise.

SUMMIT DATE	SUBMISSION FEE	REVIEW TURNAROUND	PROCEEDINGS
14 NOV 2026	₹0 / $0 FREE	2–4 DAYS	978-81-181597-0-4
100% Virtual International	Zero Upfront Barrier	Double-Blind Peer Review	SVRIAS 2026 Volume

Summit Lifecycle & Author Journey Infographic

ROLLING FAST-TRACK REVIEW

01 — Abstract Intake
Free submission of 250–350 word structured abstract & AI disclosure.

02 — Peer Review SLA
Double-blind technical review with formal decision in 2–4 working days.

03 — Acceptance & DOI
Early registration, ISBN 978-81-181597-0-4 proceedings & DOI.

04 — Live Virtual Talk
10-min live oral presentation + 5-min Q&A on 14 November 2026.

Advancing the UN Sustainable Development Goals (SDGs)

GLOBAL IMPACT — United Nations 2030 Agenda

SDG 4: Quality Education
AI literacy, academic integrity, pedagogical ethics & reproducibility.

SDG 9: Industry & Innovation
Trustworthy AI infrastructure, auditable ML & open science benchmarks.

SDG 16: Peace & Institutions
Combating paper-mill fraud, citation syndicates & synthetic deceit.

SDG 17: Partnerships
Multi-stakeholder collaboration among labs, publishers & universities.

Executive Mandate & Summit Purpose

CORE RESEARCH PILLARS

As foundation models and autonomous agents reshape scientific communication and industry decision systems, institutions face synthetic paper mills, hallucinatory citations, opaque black boxes, and ethical ambiguity. **SVRIAS 2026** unites global stakeholders around three pillars:

Scientific Rigor
Forensic disruption of synthetic paper mills, image tampering & hallucinated citations.

Responsible AI
Mechanistic interpretability, safety alignment, red-teaming & constitutional safeguards.

Data Governance
CRediT author attribution, differential privacy & open reproducibility ecosystems.

CRITICAL DEADLINES & SUBMISSION TIMELINE

CONFERENCE MILESTONE	CALENDAR DATE (UTC)	STATUS
Abstract Intake Opens	Currently Open	ACTIVE
Abstract Submission Deadline	25 October 2026 (23:59 UTC) [Extended]	STRICT CUTOFF
Editorial Peer-Review Decisions	Within 2–4 Working Days	ROLLING REVIEW
Early-Bird Registration Deadline	01 November 2026 [Extended]	CONCESSION RATE
Final Slides & Camera-Ready Intake	05 November 2026	FINAL SCHEDULE
Live Virtual Summit Date	14 November 2026	GLOBAL BROADCAST

SPECIAL MERIT INITIATIVE • 10 FULL AWARDS

SVRIAS 2026 Student Research Presentation Grants

ScholarVault sponsors **10 competitive 100% registration fee waivers** for top-ranked student-authored abstracts. Includes free virtual presentation slot, ISBN proceedings publication, and official Grantee Certificate. Apply directly during abstract submission.

100% Fee Waiver

ISBN: 978-81-181597-0-4 · CFP DOI: 10.5281/zenodo.22871615
• SIX RESEARCH TRACKS

COMPREHENSIVE SCOPE OF INQUIRY

THE SIX RESEARCH TRACKS

Submissions may encompass empirical evaluations, theoretical frameworks, forensic tools, policy analyses, or case studies across these six interdisciplinary tracks.

TRACK 01 POLICY & ETHICS

AI Ethics, Alignment & Autonomous Governance

Ethical oversight frameworks, safety alignment, bias quantification, and international regulatory compliance.

EU AI Act · Fair Scoring · Multi-Agent Safety · IRB Governance

- Algorithmic bias mitigation & disparate impact auditing
- EU AI Act compliance & legal liability architectures
- Autonomous multi-agent supervision & alignment guardrails
- Institutional AI ethics board governance in universities
- Societal impact modeling for high-stakes decision systems

Output: Frameworks & Audits · Benchmark: Empirical Validation

TRACK 02 FORENSICS

Research Integrity & Paper-Mill Forensics

Forensic algorithms to detect scientific fraud, synthetic literature, citation manipulation, and image forgery.

Paper-Mill Forensics · Image Auditing · Citation Cartels · Anti-Predatory

- Automated detection of LLM-generated scientific manuscripts
- Deepfake scientific image & gel blot forensic auditing
- Paper-mill syndicate disruption & citation cartels
- Algorithmic verification against predatory journals
- Hallucinatory citation tracing in academic indexes

Output: Forensic Toolkits & Cases · Benchmark: Detection Precision

TRACK 03 INTERPRETABILITY

Responsible AI Frameworks & Explainability (XAI)

Mechanistic interpretability, adversarial red-teaming, and constitutional safety in high-stakes deployment.

Mechanistic XAI · Red-Teaming · Clinical ML · Constitutional AI

- Mechanistic interpretability for foundation model weights
- Adversarial attack simulation & automated red-teaming
- Uncertainty quantification in automated clinical diagnostics
- Constitutional AI and rule-based safety guardrails
- Auditable causal discovery & post-hoc explanation fidelity

Output: Architectures & Probes · Benchmark: Safety Verification

TRACK 04 ATTRIBUTION

Authorship, Attribution & AI Content

Establishing authorship standards, intellectual property governance, provenance, and CRediT taxonomy adaptation.

CRediT Taxonomy · Watermarking · Copyright Ethics · Publisher Standards

- Formal taxonomy of non-human contributions in research
- Statistical & cryptographic watermarking for text/code
- Training data copyright, scraping ethics & fair use
- Standardized AI disclosure statements for publishers
- Provenance tracking across multi-author hybrid workflows

Output: Attribution Protocols · Benchmark: Legal & CRediT Clarity

TRACK 05 REPRODUCIBILITY

Peer Review Ethics & Reproducibility

Open science protocols, containerized artifacts, and resolving computational reproducibility across disciplines.

Artifact Badging · Review Auditing · Open Datasets · Pre-Registration

- Artifact badging & automated containerized code audits
- Bias mitigation in AI-assisted peer review evaluation
- Open dataset licensing and validation protocols
- Registered reports & pre-registration of ML benchmarks
- Computational replication pipelines & dependency tracking

Output: Replication Benchmarks · Benchmark: Open Code/Data SLA

TRACK 06 PRIVACY & TRUST

Data Privacy & Algorithmic Accountability

Privacy-preserving machine learning, differential privacy, synthetic data safety, and verifiable auditing.

Differential Privacy · Federated ML · Machine Unlearning · Audit Standards

- Differential privacy in distributed & federated learning
- Synthetic data fidelity versus deanonymization risks
- Machine unlearning protocols & the Right to be Forgotten
- Independent third-party algorithmic auditing standards
- Cryptographic verifiable inference in cloud deployments

Output: Auditing Protocols · Benchmark: Privacy Bounds & Proofs

ISBN: 978-81-181597-0-4 · CFP DOI: 10.5281/zenodo.22871615

AUTHOR SPECIFICATIONS & INTAKE CRITERIA

SUBMISSION GUIDELINES & REGISTRATION

Submissions undergo double-blind peer review. Accepted abstracts are scheduled for virtual presentation and published in *SVRIAS 2026 Conference Proceedings* (ISBN: 978-81-181597-0-4).

STAGE 01	STAGE 02	STAGE 03	STAGE 04	STAGE 05
Prepare Abstract	**Online Intake**	**Double-Blind SLA**	**Camera-Ready**	**Live Summit**
250–350w Structured	Free / Zero Barrier	2–4 Day Decision	ISBN 978-81-181597-0-4	14 Nov Presentation

Abstract Preparation Requirements

- **Word Count:** 250 to 350 words (maximum 500 words).
- **Structure:** Background, Objective, Methodology, Results, and Ethical Implications.
- **Keywords:** 4 to 6 standard index terms (IEEE / ACM / MeSH taxonomies).
- **Language:** Standard international academic English.
- **Template:** Official Word (.DOCX) template available on downloads portal.

Publication & Integrity Standards

- **AI Disclosure:** Authors must state whether generative AI was utilized in manuscript drafting.
- **Similarity Index:** Strict < 10% similarity cutoff (Turnitin/iThenticate screening).
- **Presentation:** 10-min live virtual oral presentation + 5-min Q&A.
- **Proceedings:** SVRIAS 2026 Proceedings (ISBN: 978-81-181597-0-4) + DOI.
- **Certificate:** Verifiable Digital Certificate of Presentation for all speakers.

TRANSPARENT DELEGATE REGISTRATION FEES (AFTER ACCEPTANCE)

PARTICIPATION CATEGORY	DOMESTIC AUTHORS (INR)	INTERNATIONAL AUTHORS (USD)
Abstract Intake & Peer Review	**₹0 (Free of Charge)**	**$0 (Free of Charge)**
Student Presenter (UG / PG / PhD)	**₹2,500** (Gold: ₹2,399)	**$129 USD**
Academic / Faculty Presenter	**₹4,999** (Gold: ₹4,898)	**$199 USD**
Co-Author Delegate	**₹2,200**	**$79 USD**
Industry Professional Delegate	**₹9,999** (Gold: ₹9,898)	**$397 USD**
Listener / Non-Presenting Delegate	**₹1,999** (Gold: ₹1,898)	**$99 USD**
Institutional Student Cohort (25 Papers)	**₹18,750** (₹750 / paper)	**$250 USD**

FAST ONLINE SUBMISSION

Ready to Submit Your Abstract?

Submit directly through the official conference portal or scan the QR code with your mobile device. Templates in Word (.DOCX) and PowerPoint (.PPTX) are available on the downloads page.
